Blood Pressure Unit

The MedSource Blood Pressure Unit features an accurate gauge with no needle stop, a durable, easy to adjust nylon cuff with hook and loop fasteners, and a standard pressure release valve. This unit was created for the cost-conscious care provider who is not willing to compromise on accuracy and quality. Each unit is sold complete with matching carrying case.

Specification:

- Range: 0-300mmHg
- Accurate, No Needle Stop Gauge
- Durable, Nylon Cuff
- Carrying Case Included
